

Miles From Home

This was a short bait and was just meant to teach this idiot a lesson in power. After a couple of insults, Miss Anna Miles decided to get tough with me and threaten backing out of our deal and even had the nerve to lecture me. Now she has nothing, cuz I tell her off...

Dear Sir,

It's a great pleasure for me to contact you today with my proposal. My name is Mrs. Anna Miles. I am 32 years of age. I am from Ghana in West Africa by origin.

I lost my husband two years ago; he was involved in a car accident which took away his life. Since my late husband's death, his family has been on my neck, they succeeded in taking all the money in the Bank, all the buildings here in the city and the ones in the Village. My late husband was a big gold miner before he died, he owned six different gold and diamonds mining sites.

My reason for consulting you now is for you to come and assist me to invest in this mining site as we will enter into agreement. I need finance to develop two sites and to increase production in the other old ones by the way of increasing labor. I will like you to be my partner so that you will be selling every gold and diamond we mine overseas; in this case, I really know that we can make more money than selling it in a local market here.

I will like you to come down for inspection, if you are satisfied, then we enter into agreement, I will ask my lawyer to draft MOU for us. As you will be leaving back for your Country, you prepare yourself to fly back with some kilos of gold which I have standby now. You are to sell it and send part of the money to me while you use the rest to purchase our mining materials.

I will be expecting your favorable response.

Best regards to you and your family.

Mrs. Anna Miles
