

Rosie Cheeks

This was one of a few MySpace scams that I received all at once. This one went on the longest – she never really had the opportunity to bring up money. It's funny how it the first email I tell her I know that the emails are coming from Nigeria and that she is lying, and that this scambait continues for weeks.

roseline.dean (10:59 AM): I live in Norfolk

Greg's (11:00 AM): is that close to London?

roseline.dean (11:00 AM): in london

roseline.dean (11:00 AM): brb....i have to restart my pc....it's acting up

Greg's (11:00 AM): ok

This chat session was funny because it shows that she has no concept of American money. She gets paid \$500 a month? She picked this from my list (\$500/month, \$500/week, \$500/day) because it would make it seem that she was poor or needed money, thus setting up the inevitable. What she didn't expect was me to fawn over the amount and say she was rich and made a lot of money. In Nigeria, annual per capita income is less the \$1000.00, so now she probably thinks she made a grave error by saying she earned the princely sum of \$500/month, when, if you do the math, is \$3.12 an hour and well below minimum wage.

**roseline.dean (8:46 AM):** Thats good

**roseline.dean (8:48 AM):** What is your desire for intimacy and your verbal ability to be intimate?

Greg's (10:16 AM): on our international shipments, it is such a pain to deal with all of the aspects of the logistics of the shipments and dealing with customs, as well as distribution of the product to the customers - it will be nice for someone else to handle all of these details

**This whore did it again! Right in the middle of a conversation, she abruptly logs out...**

\*\*\*\*\*

I didn't hear from her for four days, which is odd because she is logged on to Yahoo every morning when I get to work. I enjoy the break, but out of curiosity I email her to find out what is up and her email is shut down! I didn't do it, I swear! Unfortunately she has not contacted again (it's been 7 days now) so I guess this bait is over! Not too bad though considering I told her I knew she was from Nigeria in the first email!
