

Color Me Stupid

This was a short bait that ended prematurely because his email address was shut down. This has happened to me many times where they get shut down by someone else, and I never hear from them again. I have argued this point with my fellow scambaiters and we totally disagree on this. I routinely shut down email addresses of scammers when I have a chance. Some of my fellow scambaiters have said that this does no good because scammers have their email addresses backed up and I am just ruining it for other baiters. This is not true! I have lost a lot of scammers when their email address was shut down by someone else and I never heard from them again when I was playing the proper victim.
