

Dennis The Menace

Another job scam where they send you fake checks – you deduct 10% and forward the rest via Western Union – by the time you figure out the check is fake, the money is long gone...I like these scams because it is so funny seeing the scammer trying to pose as a “Big Important Businessman” – they are all idiots and obviously know nothing about business or banking – they only know how to steal from innocent people and how to have sex with goats. Happy reading...

Explain to me why you can't have your U.S. client's just send the money to you? Companies and banks in England can take cashier's checks and money orders guaranteed by U.S. banks. Or why don't they just do a wire transfer to you bank? None of this makes sense. I am interested in the position if you can explain these questions adequately.

Thomas

It takes 30 days for US certified checks to clear in the UK.This is why the company needs representative in the US to cash our checks in only 3-5 days.

How do you go about handling income tax and the like?

Thomas

Checks and other form of payments will be in your name.You wont be paying tax on any of those.

(He is obviously thinking of sales tax – yes he is a Grade A Moron!)

But I will be required to pay income tax on the money I earn. How is that handled?

Thomas

There is no record of you doing any job.You only receive checks in your name and cash them at the bank.No record that you are on any job.So you exempt tax.

I guess you are not understanding me. Is this a real job? Are you a real company? Any income that I earn, I am required to pay taxes on it. You are aware of this right? What do you mean there is no record of any job?

Thomas

You ask too many questions.forget about this job.It isnt for you.

Maybe it is because you don't know the answers to my questions?

You are obviously an idiot, who knows nothing about business.

Thomas

These scambaits usually don't last too long because the scammer gets frustrated because they are stupid and don't know the answer to these simple questions. They usually get pissed like this idiot did! There may be more updates to this scambait, as I called him an idiot – we'll let if he will respond or let it slide...

Five bucks says this Banana-Crammer will email me back with an insult! Any takers? (5/13/2009)
