

John Carter

I wonder if he knows his name is stolen from a Disney Movie. This genius sent this first email out to hundreds of email addresses. How do I know this? Because the idiot included them in the address line instead of the BCC line, so they all appear in the email. When I replied, it was right above a huge block of email addresses that he sent the email out to. I deleted them from this post, to protect the innocent.

Are you angry with me? Sorry, that was not my intention.

I apologize, but you just seem extremely stupid and I would rather not speak with someone as dumb as you.

No offense.

Could you please put me in contact with a white person? All black people are stupid and smell bad.

Thanks,
Mac

Stop emailing me godless joker

I thought you were going to put me in touch with someone intelligent that I could speak to – you know, like a white person.

Mac

Why haven't you answered me, you stupid black monkey?

Mac

Mac

That was the end. No more responses. I am currently re-baiting him under one of my other profiles.
