

Power Walker

You know - Obama being elected was the best thing that ever happened to these Nigerian fools. Not that it has changed their station in life any, but they have bragging rights over white people. To them, this means something. I love how this fool tells me he is a world power because Obama is president, though he denies his race and has to beg from white people.

Technically, this is a reasonable answer. Although he "spent" 24 of his 38 years in America, if he spent the last 14 in England he could have become accustomed to call soccer football. Either way, we still knows he is a scammer.
