

## The Other Guyman

This fool is so stupid. He tries to convince that his Yahoo IM was hacked and someone uploaded a picture of a white man and talked with me. He insists that he is proud to be black, all while still chatting with his fake picture of a white man. Weeks later, I still see him online, but he will no longer answer my taunts, but he is still using the same fake picture of the white man. Yes, he is proud to be black and the other guy uploaded the fake picture. So he is either too stupid to change his picture to the correct one, or is an internet scammer. Or a combination of both, which is my guess.

debbiedawson0404: According to the report, absolute poverty is measured by the number of people who can afford only the bare essentials of shelter, food and clothing.

debbiedawson0404: The NBS, a government agency, said there was a paradox at the heart of Nigeria as the economy was going from strength to strength, mainly because of oil production - yet Nigerians were getting poorer.

debbiedawson0404: The NBS said that relative poverty was most apparent in the north of the country, with Sokoto state's poverty rate the highest at 86.4%.

debbiedawson0404: In 2010, 93.9% of respondents felt themselves to be poor compared to 75.5% six years earlier.

I continue to harass this fool, but he no longer responds. Yes, he is still logging in with his fake pic of a white man, that the fictitious other guy uploaded for some strange reason.
